- Easily converted to a bottle top water cooler

Cup dispenser

Hot/Cold option available

Easily converts to bottle top cooler

D14 SERIES

POINT OF USE WATER COOLER

FEATURES & BENEFITS

Top and front panels are molded of ABS plastic and side panels are made of electric zinc coated steel with high polymer polyester resin making them quickly and easily cleaned.

The faucets are durable polypropylene self closing taps. Child resistant taps are available as an option or as standard on hot/cold systems.

Hot & cold tanks are made of hygienic stainless steel.

Double float valve maintains water height in reservoir.

Easily converts to a bottle top water cooler by removing the float valve.

REFRIGERATION SYSTEM

Ozone friendly HFC-134a refrigerant. Flow is controlled by capillary tube which has no moving parts. Condenser is air cooled static type for silent running. No fan assembly is required. Compressor is hermetically sealed, permanently lubricated and protected against motor overload.

ELECTRICAL

240Volts, 50Hz single phase. A 1.8 metre house cable and 3 pin plug is supplied. Full load current is 1.5 amps.

CAPACITIES CHART

Room Temp	150ml Cups/Hr at 10°C	Litres/Hr at 10°C
21°C	44	6.6
27°C	32	4.8
